Panjam Rudra Prathap

Computer Science Engineer

+91-8106963592 rudraprathap369@gmail.com linkedin.com/in/rudraprathap

Career Objective

Computer Science Engineering student with hands-on experience in network engineering, web development, and database management. Skilled in Java, SQL, HTML, CSS, and Networking technologies including TCP/IP, routing, and switching. Experienced in designing network simulations and developing web-based management systems. Passionate about building efficient technological solutions and continuously improving technical expertise.

Education

B.Tech in Computer Science & Engineering **2025-2028(Expected)**
Madanapalle Institute of Technoly and Science, Madanapalle *Current CGPA: 7.75 / 10*

Diploma in Computer Engineering **Batch: 2022-2025**
Govt. Polytechnic, Pillaripattu *Percentage: 86.06% / 100*

Secondary School Certificate (SSC) **2022**
A.P. Residential School, Chillamanuchenu *Percentage: 87.83% / 100*

Skills

Programming & Querying: JAVA, SQL
Web Development: HTML, CSS, JavaScript, Responsive Web Design
Networking: TCP/IP, Subnetting, Routing & Switching, LAN/WAN Concepts
Core Skills: Network Troubleshooting, Website Development, DBMS.

Experience

Network Engineer Intern **May 2024 – November 2024**
Network Engineering Training(Remote) *Tools Used: Cisco Packet Tracer, IP Addressing, Routing and Switching*

- **Configured and simulated enterprise network topologies** using Cisco Packet Tracer, implementing IP addressing, subnetting, and routing protocols for efficient network communication.
- Designed and tested LAN and WAN network architectures, applying switching concepts, and network troubleshooting techniques to improve connectivity performance.
- Monitored and analyzed network traffic using Wireshark, identifying packet flow issues and ensuring reliable data transmission across simulated environments.
- Collaborated with team members to implement network security fundamentals including access control, basic firewall configuration, and protocol validation to enhance network stability and security.

Computer Laboratory Management – Government Polytechnic **November 2024 – April 2025**
Diploma in Computer Engineering

- Managed Diploma college computer lab operations including system configuration, troubleshooting, and network maintenance with team.
- Provided technical support to students and faculty while maintaining lab infrastructure and asset records.

Projects

Inventory Management System | *Web-Development* **March 2025 – April 2025**

- **Developed an Inventory Management System** Developed a web-based inventory system reducing manual asset tracking effort.
- Designed relational database using SQL for structured data storage.
- Implemented responsive UI using HTML, CSS, JavaScript.
- Improved inventory monitoring through automated alerts and reporting features.

Awards & Certifications

- **Skill Development and Knowledge Program in Network Engineering (2024):** Trained in network configuration, routing and switching, IP addressing, troubleshooting, and network security fundamentals.
- **Best Final Year Project – 2025, Govt. Polytechnic college :** Developed an Inventory Management System to track departmental inventory, manage stock records, and streamline asset monitoring across the college.
